

SENIOR FRONTEND (REACT/NODE) ENGINEER

RE PARTNERS

RE Partners Consulting is a New York - based business technology consulting firm. We are working with the digital-first financial services company committed to making saving and investing accessible to everyone.

The company is one of the largest FinTech Start-ups, and received multiple awards including Forbes Fintech 50.

PROJECT

We're hiring a Senior React Engineer for our Platform team. The Platform team works horizontally across all other product and engineering teams to help accelerate the development process.

The Platform team builds internal workflows and tooling that have a wide impact over all the teams and products.

By breaking down barriers and building transparent, technology-driven products, we help the 99% build smarter financial habits so they can confidently save more, grow wealth, and enjoy life.

WHAT YOU WILL DO:

- Design and implement intuitive web applications
- Build and maintain scalable and well tested web applications using ReactJS and NodeJS
- Work on new, greenfield projects that will have an immediate impact on both our users and the company
- Collaborate in an agile, cross-functional team while communicating project guidelines, reinforcing best practices, and utilizing modern tooling.
- Instrument, test, profile, and code review software
- Continuously deploy to our cloud-based infrastructure

WE'RE LOOKING FOR

- Professional experience building web applications using a modern JavaScript framework such React, Ember, Angular, Vue, etc.
- Experience with JavaScript/TypeScript, HTML5, CSS3, NodeJS, Express, and Jest
- A keen interest in testing best practices and high code quality
- Experience with development tools such as webpack, babel, and git
- An understanding of UX best practices for the web platform
- An understanding of system design patterns

WE OFFER

- **100% remote work**
- **Salary in USD or cryptocurrency**
- **Great company culture focused on empowerment and leadership**
- **Unlimited bonuses based on your impact**
- **Challenging projects across a wide variety of companies and domains**
- **Certifications and continuing education, Professional Conferences and Training**
- **Additional benefits such as fitness club memberships, access to co-working space, Global Team Building Activities, English classes and more**
